Googols of Fun is a Children's Edutainment Center!

Googols of Fun is a Children's Edutainment Center, a place where fun and learning meet. We provide an indoor facility, which offers education and entertainment while keeping children's health and welfare a priority. We strive to promote literacy and global awareness, as well as tend to our children's general mental and physical well-being. By offering a widely varying pallet of interests, science, technology, music, crafts, language, and performance art, we impart knowledge as well as FUN, Googols of Fun!

What is a Googol?

A googol is the number 1, followed by 100 zeros. It can also be read as 10 to the 100th power.

One day in 1938, Dr. Edward Kasner, an American mathematician, asked his 9-year-old nephew, Milton, to give the number a name. Milton called it a googol.

Now you've learned a little about a googol. Mix that with 'of fun' and you've got our name. Googols of Fun is where fun and learning meet. THAT'S EDUTAINMENT!

Special Events:

"The staff went out of their way to make my daughter's birthday party special."
C. Smith - Lawrence, Kan.

"There was little work for the parent. They even helped carry the presents out."
K. Marsh - Topeka, Kan.

Let Googols of Fun make your child's party the most memorable ever!
