MESSAGE TEXT:

SHARP Reports on the MVS Delayed

Due to a technical issue, SHARP reports generated in the on- and off-cycle processing from Monday, November 10 have not yet been moved to the agency directories on the MVS. DISC technical staff is working to resolve the issue and reports will be made available as soon as possible. A message will be distributed to subscribers of the SHARP listserve when the reports from Monday's processing are available.

Thank you for your patience while this issue is being resolved.
