

How to Participate in the Program

Application to SaH is made in person with a trained enrolling assistant at one of many certified enrolling agents throughout Kansas (usually a local victim assistance program or law enforcement agency). Applicants cannot apply directly to the Secretary of State's office for admission into the Safe at Home Program. Evidence of abuse must be provided, such as court/police records or files, documentation from a public or private victim assistance agency or religious, medical or other professional from whom the applicant has sought assistance.

The enrolling assistant will explain the program's services and the participant's responsibilities and determine if the applicant could benefit from participation as part of an overall safety plan. The enrolling assistant will help the applicant with the completion and filing of the SaH application form with the Secretary of State's office. Once the application is accepted by SaH, the participant will receive a participant card within one week to use as verification to all agencies that they are a member of the program.

State's office.*

Safe at Home (Kansas Address Confidentiality Program)

What is Safe at Home?

The Safe at Home Program, enacted in Kansas in 2006, is a confidential address program that benefits victims of domestic violence, sexual assault, stalking and/or human trafficking who have moved to a new location—unknown to their abuser. The program provides (1) a substitute address to be used by participants as their legal address when interacting with state and local agencies, and (2) a free mail forwarding service for first-class mail. Victims can register to vote, obtain a driver's license, etc., without fear that such public records will put them at risk of being located by their abuser.

The Safe at Home Program (SaH) offers participants an extra layer of protection and can be an important part of an overall safety plan.

How It Works

First-class and certified mail that is sent to the substitute address (post office box) will be forwarded by SaH—at no cost to the participant—to the participant's actual location. The participant must agree to accept all mail forwarded to them by the program.

Program participants who have a minor child or children and have court orders regarding the custody, visitation or support of the child or children must notify SaH of the agreements or any pending court action. SaH will then notify the other parent and opposing counsel of the substitute mailing address provided by the program for the participant.

All records of SaH participants are confidential and cannot be released by program staff unless directed by a court order or requested by a law enforcement agency.

Eligibility Criteria

To be eligible to participate in the Safe at Home Program, an individual must be:

-  A victim of domestic violence, sexual assault, stalking and/or human trafficking or an adult family member residing with a program participant; a parent acting on behalf of a minor; or a guardian acting on behalf of an incapacitated person.
-  At least 18 years old or a parent/guardian applying on behalf of a minor or incapacitated person.
-  Recently relocated or planning to relocate to a location unknown to the abuser or stalker.
-  Willing to make the Secretary of State's office their legal agent for service of process and recipient of first-class and certified mail.

Certification of a Program Participant

Once the completed application is received and accepted, the applicant will be certified as a participant in SaH. The certification is effective for four years, unless otherwise cancelled before the expiration date.

Upon certification, the participant will be issued a substitute address (a post office box number) that can be used as the participant's residence, school and work address, and an authorization card identifying the individual as a SaH participant.

The substitute address is considered the legal address of the participant. State and local agencies must accept the Safe at Home address when the ID card is presented, except in limited circumstances.

Responsibilities of a Participant

-A participant must accept and is responsible for all mail forwarded by SaH and must understand that delivery of mail could be delayed as much as seven days.

-A participant must understand that magazines, catalogs, junk mail or any mail that is not first-class (except mail from government agencies) will not be forwarded to the confidential address. Packages will only be forwarded with pre-approval.

-It is the participant's responsibility to let state and local government agencies know that he or she is a SaH participant by presenting the authorization card.

-If a participant discloses his or her actual address voluntarily to a government agency, the agency is under no obligation to keep the information confidential, and there is no requirement to retroactively change a participant's address.

-The participant's certification in the SaH program may be cancelled for any of the following reasons:

-Providing false or incorrect information on the SaH application.

-Failure to notify SaH of a change in residential address at least seven days prior to moving.

-Mail forwarded by SaH to the participant's address is returned as nondeliverable.

-The participant obtains a legal name change after being certified as a program participant.
